Differentiators

Empowering young students to Know & Grow
Providing classroom teachers with services and products
Tutoring: both in-school and after-school
100% of donations and grants fund program services
Completely volunteer ran

Our Mission

We collaborate with kindergarten and first-grade teachers who have to bring the Dinsmore students further along before these children are *left behind* at the beginning of their education. We serve 200 students annually.

Our Programs

Know & Grow Tutoring

- ◆ Our tutoring is: Free. Fun. Convenient. And, yes, it works!
- ◆ Every kindergartener has own iPad for differentiated learning

Lil' Mathematician

- ◆ We want students to LOVE math!
- ◆ We want children to THINK math and not just memorize!

Literary Support

- ◆ Kid-sized materials
- ◆ Classroom teaching tools

Goal: 90% at grade level by the end of first grade
